

# ArtHaus

**IT solutions for your business**

# About Us

- Established in 1998, based in Skopje, 20+ employees, 60+ clients, 300+ projects portfolio
- Target clients: Small & Medium sized businesses
- Key Markets: US & Australia
- Mission: To become one stop shop for small and medium sized companies to implement the right set of cost-effective IT tools & solutions to help them gain significant advantage over their competitors

# What we do

- Business Focus:
  - Custom software development
  - Software maintenance
  - Help desk support

# What we do

- Custom software development
  - Web Application Development
  - Windows (Client-Server) solutions
- Based on your requirements our team of experienced Project Managers and Developers will deliver reliable, easy to maintain and scalable software applications, customized to your specific needs and circumstances.

# What we do

- Software maintenance
  - Adding new and extending existing features in your current software applications.
  - Re-architecting individual software modules to make them more scalable and future-prone.
  - Integrating information from disparate applications.
  - Migrating applications

# What we do

- Help desk support
  - Our support engineers team can help with reducing the cost of providing Level 1 help desk support to your users in a Microsoft Windows-based environment. Currently we provide this service to companies or company branches located in the Europe and Africa time zones and through our partner based in Australia we can also provide support in the South Pacific and East Asia regions.
  - We are also working to expand this offering in other regions in the future.

# Technologies

- Server Side Development :  
PHP, ASP, ASP.NET, Java
- Client side interfacing and programming:  
Web: JavaScript, Flash Action scripting  
Desktop: C#, XAML, VB6, VB.Net
- Databases:  
MySQL, Oracle, MS SQL Server, Postgresql
- Mobile platform development
